

ADOPTED

RESOLUTION

1 RESOLVED, That the American Bar Association supports efforts to increase
2 disclosure of political and campaign spending and urges Congress to require
3 organizations that are not already required to do so by current law as interpreted
4 and applied by the Federal Election Campaign Act to disclose (a) the source of
5 funds used for making electioneering communications and independent
6 expenditures as defined in federal campaign finance law, subject to such
7 reasonable threshold limits as may be necessary to avoid infringing on any
8 implicated Constitutional interests such as the right of free association, and (b) the
9 amounts spent for such communications and expenditures, in public disclosure
10 reports filed with the Federal Election Commission according to requirements
11 under the Federal Election Campaign Act and regulations thereunder that are
12 applied consistently without respect to the nature of the entity making the
13 communication.
